Dear Sir,

I have been privileged to know David Roush for the past two and one-half years in his position as a news reporter for WJAC TV. I have seen him reporting on television many times and have been impressed with his professionalism.

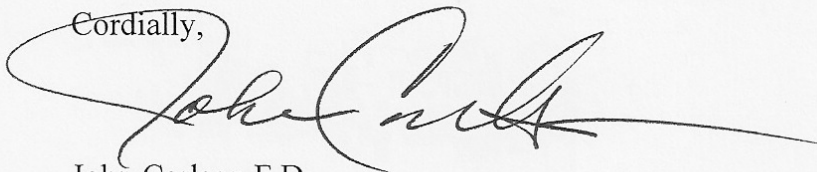

In my position as a funeral director, I have worked with him twice in tragedies that have occurred in our area. He immediately contacted our funeral home to discuss filming and reporting the visitation, funeral and interviewing the family. This was not done by any other media people. After meeting with Dave, I was very impressed with his kindness, concern, and compassion for the family we served and he reported on. I personally witnessed part of an interview he did with a bereaved family. His professional approach made the experience as easy as possible for the family.

As he worked filming various parts of the funeral, he was very inconspicuous to the family and mourners. When this filming was viewed on television all important details were shown and the facts reported accurately.

I consider it a privilege to work with Dave at the worst times in bereaved families lives.

I would highly recommend David Roush for any position you may have available.

Cordially,
