To Whom It May Concern:

RE: David L. Roush

We have known Dave for approximately 3 years in his role as a television news reporter for WJAC Channel 6 of Johnstown, Pennsylvania.

Dave has always conducted himself with a high level of professionalism. In our interactions with him, we have found him to be very courteous. He should pride himself with his accuracy in his reporting style. In stories he covered with us as County Commissioners, he always researched and investigated the facts and presented with fairness and balance when reporting controversial stories.

Some specific stories that come to our minds are Election issues, 911 Center upgrades and recent prison renovations. We might add that in regard to our annual County Fair that Dave's coverage was outstanding.

In conclusion, we would both recommend that you give Dave the highest level of consideration for employment with your company.

Sincerely,

Paul Corbin, Chairman

James P. McIntyre
